The Boiet

an expression of Peeple's opinion

29th Year, No. 9-

Shaker Heights High School, Shaker Heights, Ohio.

April 1, 1984

The Most Forgetable Character I've Known

This issue's personality of the month is a typical example of the results of Stanislaus Erl Peeple's "Five-Year Plan." Formerly a Shaker Heights High School chemistry teacher, Alfred Lata has reached the pinnacle of success under our Plan.

Looking back upon his first colloidal suspension, it is easy to understand how, with his own intellectual prowess and the help of Big Brother, he expanded Lata Enterprises from 1958's one test tube colloid to his present 999,999,-999,999,999,999 gallon jugs per hour production.

Unselfishly devoted to our Leader's dream of world domination, Lata has closely followed the Plan. His factory has: 1) two daily twelve-hour shifts; 2) an individual worker quota of 847,596,365,-302,093,978 gallons per day, @ \$58,395,953; 3) an average monthly salary of 331/4c for each employee; 4) no overhead, i.e. no advertising, fringe benefits, pension funds, insurance policies; 5) enforced purchasing; 6) no outside

(Continued on Page 2)

As you well know, for the past decade or so Shaker High has been extremely overcrowded. I can assure you that steps will immediately be taken to alleviate this problem. By next Thursday we hope to have liquidated onethird of the present student body.

To further reduce the studentteacher ratio, the dainty game Guts will again be played in all boys' physical education classes, and girls in fencing class will not be allowed to wear any form of protecting padding or mask. In order to conserve space, each hall locker will now be shared by ten students.

I know you will be overjoyed to hear that television has been installed in every classroom-"the better to see YOU with." (See Red Tales for Riding Hoods, Page 28.)

It has come to our attention that heretofore not enough emphasis has been placed upon education in the American schools. Henceforth, all students now taking either junior, sophomore, or senior English must take courses in driver education, above-water basket weaving, underwater drowning, shopping, and/or auto mechanics. Many students will find the letters "GC" on their new schedule cards. These letters mean "Gas Chamber," not "You-Know What." For those students with GC scheduled for next week, a Saturday morning class is offered in Grave Digging for Personal Use. And for your own benefit, persuade one of your friends to take Embalming for Fun and

From Our Leader

ATTENTION, peasants! This is your beloved leader, Stanislaus Erl Peepel, bringing you, in the words of your own Abraham Lincoln, "a government of the Peepel, by the Peepel, and for the Peepel." Since we are all now good friends, you may call me by my nickname, "Louse."

Profit. May I remind you that

neither of these courses is for col-

cease!

Shaker Again World Leader

By Irene Parker One hundred and twenty Shakerites, all members of the young Follower League, were saluted by Big Brother, Stanislaus Erl Peepel, and the student body for maintaining a high

At the Honor Day Assembly, held March 26, our brilliant young comrades (acclaimed in this week's issue of Hate) received gold keys which they, in keeping with the magnificent methods of our Regime, will later return to the State so that unnecessary mental discrimination might be avoided. Not only did these one hundred and twenty future followers maintain a 5.3 average in the school's curriculum (advanced calculus, physics, rocket building, satellite launching, etc.), but each one also gave up a month of his summer vacation to work in the copper mines of Utah.

The gold keys, presented to each student, were furnished by our glorious Regime, through the Fathers of Organized Child Slave

At the close of the assembly, students were congratulated by Cyrus Beatnik, a direct representative from the Palace, who read a note full of felicitations from our remarkable Regime leader, Stanislaus Peepel. The goal of each student is to attend one of the many fine Co-operative Universities which our Peeple-dominated world has to offer and from there join a branch of the Party which will best suit the Party's

needs. Next year, those students unable to meet the advised 5.3 average will be required to remain in school 24 hours a day. If they are still unable to meet the praiseworthy "Shaker Standard" they will be dropped from school. These mentally disabled students will then have a chance to reedeem themselves by working on our Cooperative Farms.

Our Big Brother has received word that although Shaker has been turning out some commendable party workers, our "Standard" must be strengthened. Consequently, Shakerites will now have four hours of co-operative homework nightly in all of the six required courses. This, of course, excludes the week-ends, when it is assumed that students are joyfully burdened with tasks that are ecstatically shared by all.

"The Regime is My One and Only True Love," is the motto of all good comrades. Remember, Shakerites: Big Brother is Watching You!

mentary on present political situations. Beloved Arbitration Board

Once More Slays Innocents

This year's annual April Fool's Day issue of the Shakerite

is a take-off on George Orwell's 1984, a satire on an absolute

dictatorship. It's all in jest and is not meant to be a com-

By Don Stern

"Incriminate the innocent as well as the guilty."

This is the motto of our revered Arbitration Board, which has been known to indict even its own members. The fine job that the board has done is evidenced by the fact that it has received for the second straight year the coveted 'Hate' award, presented annually by Big Brother to the group or individual who best exemplifies the high ideals of the System.

The Board reminds you that you too can become an Arbitration Board Booster by reporting your teachers and other enemies to them. Remember, if your Board is to operate efficiently, it must have your cooperation.

The following are a few of the cases considered by the board this past week. The names have been kept the same so the innocent may be incriminated the more easily.

1. Immediate action is expected to be taken against Comrade Pickering, who was overheard plotting to violate the mandate

that all "A" students be exempt from their exams.

2. Jim Todd, chairman of the Student Praesidium Keep-the-Halls-Clean Committee, was accused of scattering litter throughout the halls.

3. Laurie Osborn, Premier of the Student Praesidium and initiator of the parking sticker plan, was reported to have driven to school without a sticker on his car. (What a sticky situation.)

4. Comrade Zorro Rice was found wearing in our building the letter sweater of a rival capitalistic technical school in the East.

5. Our cafeteria director was accused of spending too much money for expensive, exotic foods for the cafeteria.

6. The band director was arraigned on charges of using extremely harsh disciplinary measures to keep his band members in order. He was ordered either to stop or be demoted to a private.

7. Comrade Bristol has been charged with impeding the students' learning by teaching too slowly.

BULLETIN: Comrade Randall, censor of this publication, reports that someone has stolen his opaque projector. "The guilty one will be persecuted!" gleefully exclaimed Randall.

The Board, known to consider all cases carefully before reaching a decision, is very efficient-in most instances the person accused is sentenced and his punishment is assigned even before he comes in front of the Board. It gives one a feeling of security to know that one's school has such an efficient and fair Arbitration Board. The results of next week's cases can be found in last week's issue.

.. NEWS BRIEFS . .

Thomas A. Subduedintellect announces his new invention, a nuclear anti-love pill. The ingredients of this three-cubic-inch capsule will not be revealed to the public; thus there can be no antidote developed. Big Brother has called out the Plutonian R.O.T.C. to enforce his new decree making the consumption of these pills mandatory.

Filed against Thomas A. Subduedintellect is a lawsuit by the Bilateral Proletariat Fly-In Movies Corporation.

Cosmic Popcorn Inc. expects a sharp decline in net profits.
